

**303 Original Mileage Fuel Surcharge (C)**

In light of the STB's decision on January 26, 2007, and in compliance to said decision, CGR is introducing a new Fuel Surcharge Tariff 01a - Item 16 effective April 26, 2007. Please see the terms of CGR's new Fuel Surcharge below:

- (a) Effective April 26, 2007 CGR will be changing to a mileage based Fuel Surcharge tariff for all new publishings. We will be using a rail-mileage calculation from third party software provider ALK Technologies - PC Miler.
- (b) The new FSC will be calculated monthly. It will be based on the average price of "US No. 2 Diesel Retail Sales by all Sellers on Highway Diesel" as determined by the US Department of Energy of the second calendar month prior to the month in which the FSC is applied. For example, the FSC in April will be calculated on the average OHD price for the month of February.
- (c) Our Fuel surcharge will be .02 cent per rail mile for every .04 cents per gallon by which the HDF average price for the Calendar month 2 months prior to the calendar month of shipment exceeds \$1.99 per gallon.
